Something to consider when you make your plans: We have tried to put together a range of hotel choices for you. I know that some of you prefer to stay in Airbnb properties, and if that saves you some money on your overall expenses, that is fine. However, a portion of the hotel occupancy tax in Winston-Salem (which Airbnb properties do not collect) goes in to a fund for arts and entertainment events to use for out of area advertising. Piedmont Craftsmen applies to this fund every year. It amounts to about 25% of our marketing budget, and covers the cost of most of the print media, direct mailing, and public radio buys that we do in a 1 to 2.5 hour driving range from Winston-Salem. Our ability to get these funds depends (in part) on our being able to show that we "put heads in beds." We don't require you to stay in one of the hotels we have blocks with, or in a hotel at all, and we certainly won't penalize you in any way if you don't, but just keep the above info in mind.
